1 Executive summary

Overview

Richard Fleming and Benjamin Cairns of Alvarez & Marsal Europe LLP (“A&M”) were appointed as Joint Administrators (“we”/“our”/“us”) of the seven Companies listed at Appendix 1 on 27 September 2020 by order of the Commercial and Civil Division of the Abu Dhabi Global Market (“ADGM”) Courts, pursuant to the ADGM Insolvency Regulations 2015 (“IR15”). The Joint Administrators were also appointed as Joint Administrators over a further 29 entities within the NMC Group on the same date. Please note that the proposals in respect of the additional 29 entities have been prepared separately.

Events prior to administration

The Companies were not originally incorporated in the ADGM, and therefore to enable the appointments to occur, the Companies were continued (re-domiciled) into the ADGM on 14 and 15 September 2020. The form of each of the Companies changed from a limited liability company (“LLC”) registered in onshore United Arab Emirates (“UAE”) to being a private company limited by shares (“LTD”) registered in the ADGM. The Companies’ legal names consequently changed to reflect the change in form and the board of directors was re-constituted with the addition of non-executive directors.

Although the Companies are now registered and head-quartered in the ADGM, the ongoing business and operations of the Companies have not changed and are being conducted onshore in the UAE through their branches. The ADGM entities each have a commercial licence in the ADGM and branch licences in the UAE have been applied for.

Our appointment to the Companies has taken place subsequent to the insolvency of their ultimate parent company, NMC Health Plc (“PLC”), which was placed into administration on 9 April 2020 by Order of the English Court. For the purpose of these proposals, PLC and its subsidiaries shall be referred to collectively as the “NMC Group”.

The appointment of administrators to PLC followed the discovery of between USD 4.4 billion and USD 5.4 billion of debt across the NMC Group that was undisclosed in its financial statements.

Upon appointment, the PLC administrators sought to stabilise the NMC Group, but the Companies came under mounting pressure as a result of legal actions being taken by various parties in the UAE courts. In light of the creditor pressure, it became apparent that they required the protection of a bankruptcy filing as soon as possible. A number of potential bankruptcy regimes were assessed but ultimately it was decided that the administration regime within the ADGM would be the most effective option, given that it would provide both a moratorium on claims (which would be recognised in the UAE onshore courts) and had features that allowed new finance to be raised on a priority basis (being a key consideration for lenders into the administrations). Additionally, the new funding required to support ongoing trade and preserve value was not available to the Companies outside of an ADGM administration process. In short, the appointment of administrators to the Companies was necessary to enable the new funding required to trade the Companies and to trigger moratorium protection from creditors whilst a restructuring occurs.

There are on-going legal actions against some of the Companies which were commenced before our appointment in the Dubai International Financial Centre (“DIFC”) and onshore courts. In order to stay these proceedings in these jurisdictions (and give effect to the moratorium), we are seeking recognition of the administration order through applications to the relevant onshore and DIFC courts.

Companies' operations and funding

The Companies provide a range of healthcare and related services in the UAE, which includes hospitals, medical clinics and pharmacies. They form part of the largest private provider of healthcare in the UAE. The Companies operate 9 facilities, including clinics and pharmacies and approximately 155 employees.

The Companies continue to trade whilst in administration to allow continuity of care to be maintained at the facilities and to preserve value for creditors. To enable these seven companies and the 29 companies we were also appointed as administrators over (together the "ADGM Companies") to continue trading, immediately after appointment we entered into an AED 2,387,125,000 (USD 650 million) administration funding facility (the "AFF"). The AFF is required to provide sufficient liquidity for the ADGM Companies to continue to trade whilst a restructuring plan is enacted.

Future strategy

Our primary strategy is to restructure the Companies and to exit the administrations through a plan of reorganisation. The plan of reorganisation is being developed in conjunction with our advisers. In the event that a plan of reorganisation is not achievable, a sale of the business is also being considered

To support the restructuring or a sale of the business, a three year business plan has been produced, a summary version of which is available on the NMC website. The business plan highlights that the underlying operations of the NMC Group are strong.

Creditor communications

All known creditors have been written to informing them of our appointment. We have also provided them with details of how to submit a claim in the administrations. All the key documents including lender updates are available to view on the NMC website in the investor relations section (www.nmc.ae/investor-relations).

Trade creditors have also been written to separately to explain the new purchasing approval process, including confirmation that any purchase made with an accompanying approved purchase order will be paid as an expense of the administration.

Investigations

A significant area of work is investigating the Companies' pre-administration transactions and dealings to assess whether recovery action(s) can and should be taken. This requires an NMC Group-wide approach. The investigation work is being led principally out of PLC, however, there is an information sharing and confidentiality protocol in place between it and the ADGM Companies to ensure the necessary information can be shared for furthering the purpose of the administration and to ensure investigation costs are shared appropriately. Our investigation work is complex and ongoing.

Anticipated outcome for creditors and related formalities

Further points to note include:

- The anticipated outcome for both secured and unsecured creditors is uncertain at present. Please refer to Section 5.1 and 5.3 for further detail.
- Any preferential creditors at the date of administration have been paid in full by virtue of the continued operations of the Companies (Section 5.2 – Dividend prospects).
- We are seeking approval of our proposals at the initial meeting of creditors to be held on 6 December 2020 and the business of that meeting will be conducted by way of correspondence in accordance with Section 63 of IR15 (Section 7 – Approval of proposals).
- We are seeking approval from the creditors at the initial meeting that our remuneration will be based on time properly given by us and the various grades of staff (Section 8 - Joint Administrators' remuneration, disbursements and pre-administration costs).

- This document in its entirety is our statement of proposals. The relevant statutory information is included by way of appendices. All amounts in these proposals stated in \$ are in U.S. Dollars and any conversions from AED have been made at the Central Bank of United Arab Emirates closing rate on 10 November 2020.

Richard Fleming
Joint Administrator

3 Background and events leading to the administration

3.1 Background information

The NMC Group was founded in 1975 and is the largest provider of private healthcare and related services across a number of jurisdictions, with a significant presence in the UAE. The NMC Group operates through two segments: healthcare; and distribution & services. It owns and manages approximately 200 healthcare facilities including hospitals, medical centres, long term care facilities, day surgery centres, fertility clinics, cosmetic treatments and home health service providers.

The NMC Group offers medical services comprising: diagnostic; in and outpatient services; research and medical services in the field of gynaecology, obstetrics and human reproduction; and management services in respect of hospitals. It also trades in pharmaceutical goods, medical equipment, cosmetic and food products.

The NMC Group has recently played a crucial role in curbing the outbreak of COVID-19 and its facilities have tested and treated a significant number of the patients in the UAE displaying symptoms of the virus.

The placing of the Companies into administration is the latest phase of restructuring for the NMC Group and follows the administration of their ultimate parent company, PLC, which was placed into administration in England on 9 April 2020.

3.2 Funding and financial position of the Companies

A summary of the purported financial indebtedness of the Companies is set out at Appendix 4. This information is based on financial records and is a preliminary view. In the time available, it has not been possible to verify the accuracy or legal validity of the security interests. We are still in the process of assessing creditor claims and, therefore, the exposition of this information should not be deemed to be an acceptance by us of the purported security interests.

The financial position as at 30 September 2020 of the Companies is set out at Appendix 4. This comprises of an analysis of the assets and liabilities of each of the Companies including any purported financial creditors. The purported debt facilities include amounts outstanding and security in respect of these amounts. Based on this analysis, each of the Companies is insolvent. Please note, the financial position has been prepared by the Companies and has not been verified.

3.3 Events leading to the administration

The cause of the NMC Group's current financial position is not an underlying failing in its healthcare business, but rather suspected historical fraudulent transactions and undisclosed borrowings entered into by certain former shareholders, senior management and third parties between 2012 and early 2020.

The events leading up to the revelation of the suspected fraud began in December 2019. A private due diligence investment firm named Muddy Waters Capital LLC published a report

alleging serious concerns with the accounts of PLC. In the months that followed, these allegations were investigated within the NMC Group which revealed the existence of between \$4.4 billion and \$5.4 billion of debt across the NMC Group that was undisclosed in its latest financial statements. Further evidence showed that some or all of the proceeds of this undisclosed debt may have been utilised for non NMC Group purposes.

On 3 April 2020, Abu Dhabi Commercial Bank PJSC (“ADCB”), NMC Group’s largest creditor, applied to the English High Court for an order that Richard Fleming, Benjamin Cairns and Mark Firmin be appointed as Joint Administrators of PLC (the “PLC Administrators”). ADCB’s application was granted on 9 April 2020. Since then, the PLC Administrators and their staff have been pursuing a strategy to facilitate continuity of care of patients of the NMC Group, and to seek a rescue of the NMC Group from collapse. The PLC Administrators have thus far made significant progress in understanding the suspected fraud and identifying its suspected perpetrators.

Notwithstanding the PLC Administrators’ appointment, some of the Companies have faced extreme pressure from legal actions being taken against them by their creditors in the UAE courts. Prior to their administrations on 27 September 2020, the Companies did not have the benefit of the moratorium on actions against PLC, as the administration order made by the English High Court was only in respect of PLC, and not its group companies. The lack of moratorium for the Companies enabled various financial institutions to take legal action in the onshore courts. These parties were attempting to seize assets and resources which were required to operate the NMC Group’s healthcare facilities, and also sought to freeze bank accounts holding funds which were needed for day-to-day trading, including payroll and purchase of critical supplies. In addition, the further funding that was required was not available outside of an IR15 administration process, making it impossible to continue to trade or to allow the Group’s debt to be restructured.

The Companies were all incorporated onshore in one of the Emirates of Abu Dhabi, Dubai and Sharjah as LLCs. As appointing administrators pursuant to IR15 is only available for companies registered in the ADGM, the Companies needed to be continued (redomiciled) into the ADGM. On 14 and 15 September 2020 all of the Companies received confirmation that their continuance into the ADGM had been approved. At that point, the Companies were de-registered onshore and became Companies registered under the ADGM Companies Regulations, as LTDs.

In the lead up to the ADGM Companies’ administration application, ADCB advanced an amount in AED equivalent to \$68 million to fund the administration applications and the Group’s most critical expenses (“Bridge Loan”).

3.4 Pre-administration work

Following the statement by PLC that there were material misstatements in its last set of audited accounts, A&M held discussions with ADCB, a key stakeholder in the NMC Group.

There was a concern that (i) the publicly available information about PLC’s financial state was materially, and possibly fraudulently, misstated and (ii) there was a real risk that PLC’s board was taking steps to prevent creditors from knowing its true financial position. It considered that it was unable to obtain accurate and up to date information regarding PLC’s financial position and consequently sought advice from A&M on the matter.

As of 23 March 2020, A&M were engaged to perform pre-administration work in respect of PLC which included:

- preparing evidence to support an application to the English High Court for administration;

- planning the administration of PLC including developing a day one communication plan to key stakeholders;
- developing a plan for enacting governance changes within the Group; and
- developing a plan to deploy appropriately skilled and experienced resources to key business units.

Once PLC had been placed into administration and in order to support the stability of the operating business of the NMC Group, A&M was engaged by NMC Holding LLC and its subsidiaries to provide consulting and advisory services, under a letter dated 26 April 2020. The work on this engagement began on 10 April 2020 and the scope can be summarised as assisting NMC Holding LLC and its subsidiaries in its preparation of a business plan and reorganisation/restructuring plan, reporting directly to Michael Davis, the then acting CEO of the NMC Group.

Work then commenced on the next phase of the NMC Group's restructuring, which was principally to protect PLC's subsidiaries from legal actions, mainly concentrated in the UAE. An ADGM administration (under IR15), a US Chapter 11 process and local UAE bankruptcy filings were considered as alternative insolvency processes to provide this protection. Ultimately, an ADGM administration was decided upon as it provided a moratorium which the UAE courts would recognise, had features that enabled priority funding of the administration to be put in place and because it was estimated to be the least expensive, effective process which would maximise returns to the body of creditors as a whole.

Administration only became more likely than not on 15 September 2020 when the Companies were continued into the ADGM.

To assist with this process, Quinn Emanuel Urquhart & Sullivan UK LLP ("QE") was engaged by NMC Healthcare LLC (as was) on 19 May 2020 to, amongst other matters:

- assist the NMC Group with identifying the entities for which it was necessary to place them into administration;
- liaise with the necessary sovereign, regulatory and professional bodies to facilitate the de-registration of the Companies in the UAE and their continuance in the ADGM;
- assist with the legal arrangements for the post-administration funding of the administration;
- assist with the preparation of the evidence and court documents for the applications to the ADGM Court for an administration order in respect of the Companies;
- assist with the preparation of the evidence and court documents for the application to the ADGM Court for a funding order in respect of the administrations; and
- engage Global Advocacy and Legal Counsel to assist with local legal advice.

In addition to QE, on 26 May 2020 NMC Healthcare LLC (as was) engaged Kirkland & Ellis LLP ("K&E") to be retained as its legal adviser in relation to a potential restructuring.

We are satisfied that the work carried out by A&M before our appointment has not resulted in any relationships which create a conflict of interest or which threaten our independence.

Furthermore, we are satisfied that we are acting in accordance with the relevant guides to professional conduct and ethics.

We are of the view that it was reasonably necessary for the work to be completed by the advisers identified above pre-administration in order to further the achievement of the purposes of the administration. In particular, the work undertaken to: (i) prepare a business/restructuring plan; (ii) consider insolvency processes; (iii) assist with deregistering the Companies in the UAE; (iv) assist with facilitating continuance in the ADGM; (v) assist with preparing legal arrangements for; and (vi) securing post-administration funding, and provide local tax/legal advice would contribute to the implementation of an effective insolvency process in order to rescue the Companies as going concerns or achieve a better result for the Companies' creditors as a whole than would be likely if the Companies were wound up.

3.5 Appointment of Joint Administrators

An application was made to the Commercial and Civil Division of the ADGM Courts by the Companies on 19 September 2020 for the Companies to be placed into administration. An administration order was made in respect of the Companies on 27 September 2020 and Richard Fleming and Benjamin Cairns were duly appointed as Joint Administrators.

The order took effect at 18:24 hours Gulf Standard Time (“GST”) on 27 September 2020 and a copy of the order can be found at www.nmc.ae/investor-relations.

4 Strategy and progress of the administration to date

4.1 Strategy to date

Since our appointment we have ensured that the Companies have a stable platform to continue trading. The business and core operations of each of the Companies has not changed (in any material way) since appointment.

All of the Companies' medical facilities that were open prior to appointment remain open, and there have been no redundancies as a direct result of the administrations. Appendix 1 contains a summary of the facilities that each entity operates.

To date, a key priority has been to minimise business disruption and to ensure that the excellent quality of care offered to patients in NMC facilities continues.

4.1.1 Trading

All of the Companies have continued to trade whilst in administration. The day-to-day operations of the NMC Group remain strong and, save for certain operational and control improvements, are not expected to materially change.

As a result of this, and due to the specialist nature of the NMC Group, we have adopted a 'light-touch' involvement in day-to-day operational decision-making, a position that has been formalised in a consent protocol put in place between ourselves and the Companies' Executive Board members. This means the board continues to have the powers appropriate for decisions to be made in respect of the regulated healthcare activities of the Companies, including medical, clinical and matters of patient care.

Operational improvements around procurement and cash management were implemented immediately on appointment. This included writing to all known suppliers on 30 September 2020 to advise of a new purchase order process. This provided suppliers with comfort that any ongoing supplies, for which they had a valid purchase order, would be paid for as an expense of the administrations.

Post-administration trading to 10 November 2020 has been ahead of budget expectations. It should also be noted that there have been certain accelerated and one-off costs that have had to be absorbed in the initial weeks of administration including costs required under the AFF, as well as ongoing difficulties in relation to purported assignments over receivables (see Section 4.1.8 below).

4.1.2 Administration funding facility

Immediately following our appointment on 27 September 2020, an application was made to the Commercial and Civil Division of the ADGM Courts to seek an order permitting the us to enter into the AFF. This application was successful and the order was granted.

We entered into an AED 2,387,125,000 (circa USD 650 million) AFF pursuant to finance documents dated 27 September 2020 (as amended from time to time, the "Finance Documents"). The original financiers under the Finance Documents are (1) Abu Dhabi Commercial Bank PJSC, (2) Emirates Islamic Bank PJSC, (3) Sculptor Capital Investments, LLC, and (4) HSBC Bank Middle East Limited.

The following facilities have been made available under the Finance Documents: (i) a commercial term facility which consists of an AED 330,525,000 (circa USD 90 million) overdraft tranche and an AED 771,225,000 (circa USD 210 million) term loan tranche (the "Commercial Term Facility"); (ii) an AED 91,812,500 (circa USD 25 million) Murabaha term facility (the "Murabaha Term Facility") together with the Commercial Term Facility, the "New Money Facilities"); and (iii) an AED 1,101,750,000 (circa USD 300 million) commercial rolled

up facility (the "Commercial Rolled Up Facility"). New funds have been and will continue to be made available to NMC Healthcare LTD (in administration) ("NMC Healthcare") under the terms of the New Money Facilities. Under the AFF, these funds are available for the ADGM Companies. The debt owed by NMC Healthcare under:

- a) the Commercial Rolled Up Facility (which is in an amount equivalent to the total commitments under the Commercial Term Facility); and
- b) an undertaking provided to the lenders of the Murabaha Term Facility (which is in an amount equivalent to such facility) (the "Islamic Rolled Up Facility", together with the Commercial Rolled Up Facility, the "Assumed Debt Facilities"),

was assumed by NMC Healthcare in consideration of the lenders providing the New Money Facilities and there was no additional cash consideration given by the financiers in respect of such facilities.

Under ADGM law, the amount lent under the Finance Documents ranks ahead of the Companies' financial indebtedness except for any financial indebtedness secured by way of fixed charge and certain expenses of the administration. The security granted under the AFF is as follows:

1. an English law debenture dated 29 September 2020 entered into by the Companies and ADCB as agent;
2. an English law share charge dated 29 September 2020 entered into by NMC Healthcare and ADCB over the shares it holds in NMC Healthcare UK Limited;
3. a UAE law movables asset security agreement dated 30 September 2020 entered into by NMC Healthcare and ADCB;
4. a UAE law share pledge entered into by NMC Healthcare and ADCB dated 13 October 2020 over the shares it holds in Cosmesurge Investment LLC;
5. a UAE security agreement dated 27 October 2020 entered into by NMC Healthcare and ADCB over the Mandatory Prepayment Account and the Proceeds Pledged Account; and
6. a UAE security agreement dated 18 November 2020 entered into by NMC Healthcare and ADCB over the Overdraft Account

The following security are conditions subsequent under the AFF and will be entered into:

1. a UAE law share pledge to be entered into by NMC Healthcare over the shares it holds in NMC Health Investments LLC;
2. a UAE security agreement to be entered into by NMC Healthcare and ADCB over the Overdraft Account; and
3. a Spanish law share pledge to be entered into by NMC Healthcare LTD over the shares it holds in Moncatalo, S.L.U..

The final maturity date under the AFF is 26 September 2021.

A syndication process in respect of AED 238,712,500 (circa USD 65 million) of the AFF was opened on 12 October 2020. Interested parties were required to return and sign a confidentiality agreement and eligibility letter in order to gain access to a virtual data room to complete their due diligence. From the opening of the syndication process on 12 October 2020, interested parties had 15 business days to 1 November 2020 to submit their orders. Orders received were in excess of the AED 238,712,500 (circa USD 65 million). Final allocations were communicated to interested parties by 16 November 2020.

4.1.3 Recognition of the Administrators' appointment

Notwithstanding our appointment, legal proceedings had been initiated and continued against certain ADGM Companies in the DIFC Court, the Abu Dhabi Commercial Court ("ADCC") and the Dubai Commercial Court.

To ensure that our appointment is recognised and therefore to enable any proceedings that are brought against the Companies in the DIFC to be stayed, we sought recognition of the

ADGM administration order in the DIFC. An application was made in this regard to the DIFC Courts on 20 October 2020 and the order was duly granted on 10 November 2020.

In respect of the proceedings in the ADCC, we have been advised by the ADCC to file the ADGM administration order in respect of individual proceedings in the ADCC. This process is underway, and we await confirmation that the enforcement of the moratorium is granted in respect of existing cases. In the event that new cases are brought against the Companies in the ADCC we will follow the same procedure. Separately, an application to open an enforcement action is awaiting registration by the ADCC enforcement department. Upon registration, we will request the enforcement judge to deputise enforcement of the Administration Order to the Courts of other Emirates in order to enforce the Administration Order in those other Emirates and in particular to give effect to the stay provided for in the Administration Order in proceedings before the Dubai Courts.

4.1.4 Branches and licences

Following the Companies continuance into the ADGM, each Company established branches in the UAE to conduct their business onshore. The branches are required to be registered with the relevant Department of Economic Development. We have been working with our legal advisers to obtain licences for each of the branches and will continue to do so.

4.1.5 Restructuring

We have been assessing the options in respect of the overall restructuring of the NMC Group. At present, a plan of reorganisation is the preferred option. This is currently being developed alongside our advisers. However, in the event that the plan of reorganisation is not successful, a sale of the business is likely to be initiated. Both options are currently being progressed in parallel.

To support the restructuring discussions, a three-year business plan has been developed. This has been presented to lenders and a summary can be found at the investor relations section of the NMC website (www.nmc.ae/investor-relations).

To assist with the overall restructuring, we requested that all creditors submit their claims into the Companies by 15 November 2020. Creditors should have received an email from us which provided details of how to log into a secure online insolvency portal (the "Portal") to submit claims. If creditors of the Companies have not yet submitted a claim, we urge you to do so. Instructions are in the email you received on 24 October 2020. If you did not receive an email, please email us at INS_NMCADGM@alvarezandmarsal.com and we will provide login details and instructions for submitting your claim.

4.1.6 Stakeholder communication

Since appointment, we have actively engaged with all stakeholders. All known creditors of the Companies have been written to notifying them of our appointment. In addition, regular updates via conference calls hosted in the ADGM have been provided to the Companies' lenders with supporting presentations.

All key documents and updates, including the lender updates, have been uploaded to the investor relations section of the NMC website (www.nmc.ae/investor-relations).

4.1.7 Communication with creditors

IR15 is silent in respect of allowing us to communicate with creditors by electronic means. The majority of NMC's communications with creditors prior to our appointment was conducted by email and therefore postal addresses were not held for a large number of creditors. To ensure that creditors could be communicated with as efficiently and cost effectively as possible, we applied to the ADGM Court for an order enabling us to communicate with creditors by email, and also to use the Portal to deliver documents to creditors. The ADGM Court made this order on 16 October 2020.

4.1.8 Receivables

We are aware that certain financial institutions are claiming that they were granted assignments of insurer payments due to the Companies. The validity of these assignments is not accepted by us, and we have written to the insurers requesting that future receivables are paid into an administration bank account, pending the outcome of validity assessment.

In some cases, receivable amounts have been held by insurance companies or paid into accounts that we do not have access to. We are working with our legal advisers to resolve this.

4.1.9 Tax

We have been working with both the NMC Group's tax team and local advisers, to ensure that to the best of our knowledge, necessary notifications and filings have been made to date and we are working to ensure the required VAT registrations are in place for the Companies. Ongoing compliance matters will be dealt with as they arise.

4.2 Asset realisations

Due to operational restrictions, most of the Companies' receipts and payments are being made into, and out of, the main NMC Healthcare bank account held at ADCB. However, not all of these receipts and payments are in respect of this entity. We are in the process of conducting the necessary analysis to establish the correct party to these transactions and, once that is complete, we intend to reflect this properly and include individual receipts and payments accounts for each of the Companies in the next report.

Bank accounts for each of the Companies are being opened, once that and the above mentioned reconciliation is complete, the relevant funds will be transferred to the correct Company's bank account.

We would comment on realisations to date as follows:

Cash at bank

We are aware of the following cash at bank balances held in accounts with Bank of Baroda ("BOB") as at the date of the administrations:

Cash at bank balances on appointment ('000s)		
Entity	AED	USD
Eve Fertility Center LTD	150	41
N M C Royal Medical Centre LTD	2,078	566
Sunny Halwan Speciality Medical Centre LTD	12	3
Sunny Maysloon Speciality Medical Centre LTD	12	3
Totals	2,252	613

Source: management information, A&M analysis

We have not been able to gain direct control over the funds held in the BOB accounts. Until further bank accounts are opened, an NMC Healthcare account is being used as the main bank account for all of the ADGM Companies.

Where possible, there are cash sweeps in operation to transfer funds from the bank accounts of other NMC Group entities (including non-administration entities) into the main NMC Healthcare bank account. This has enabled us to gain more control over some of the cash at bank balances listed above. In this regard, we have been able to recover AED 1.6 million (USD 0.4 million) of 'cash at bank' funds held in the Companies' bank accounts as at the date of the administrations.

A record of these cash sweeps has been kept and the receipts and payments accounts will be reconciled as soon as possible with a view to repatriating the funds to the correct legal entity.

We are monitoring trading income and expenditure taking place in bank accounts where it has not been possible to change mandates to our direct control. We are working with the relevant financial institutions to ensure the relevant Companies are able to utilise funds for day-to-day trade. In addition, and as noted above, certain banks have sought to take formal assignments over parts of the Companies' insurance income and we are in the process of challenging the validity of these assignments where appropriate.

Petty cash

The Companies held petty cash reserves at a facility level. We have put in place a new petty cash policy and the level of petty cash held is minimal.

4.2.2 Investigations

We have been pursuing high value potential recoveries and developing additional potential recoveries based on the evidence gathered to date.

Confidentiality protocol

The Companies have entered into a confidentiality protocol with PLC, which allows for information to be shared between PLC and the ADGM Companies as relevant to or for the purposes of the administration of the entities. There is substantial evidence to suggest that the ADGM Companies and PLC have a large number of common claims and were defrauded as a result of actions taken against the Companies prior to the PLC Administrators' appointments. There is, consequently, a mutual interest to share certain information which may be beneficial to the ongoing investigation and claims / asset recoveries. The protocol sets out the framework for each party to share certain information subject to appropriate restrictions and confidentiality obligations.

Where information is provided between the ADGM Companies and PLC, the protocol sets out the recharge of costs incurred in relation to the work undertaken in respect of that information. No costs have been recharged during the period.

Investigation work

Investigation work to date has been focused on the recovery of value. Considering the scale and complexity of the various fraudulent activities being uncovered, this will require utilising company records across the NMC Group, as well as the record of other parties, including banks, advisers, connected parties and third parties across multiple jurisdictions.

The type of activities performed comprise, inter alia:

- Analysing the financial systems data of the Companies and the NMC Group;
- Review of the books and records of the Companies and the NMC Group;
- Review of electronic communications and data;
- Interviewing shareholders, directors, management, staff and whistle-blowers of the Companies and the NMC Group;
- Analysing information provided by shareholders, directors, lenders, management and staff of the Companies and the NMC Group;
- Discussions and correspondence with advisers to the Companies and the NMC Group; and
- Analysing information provided by advisers to the Companies and the NMC Group.

The scope of the investigation extends over an eight year period and, therefore, a substantial amount of data and information is required to be reviewed (currently over 105 terra bytes has been secured). This includes very large volumes of accounting entries running into the millions and many documents of the Companies, the NMC Group and third parties. These tasks are substantial and the level of work necessary will continue to be extensive as we seek to recover value and respond to incoming claims to the Companies.

This remains an active, substantial investigation with fast changing dynamics. We therefore do not want to prejudice the outcome of any investigation by commenting further at this

stage; however, we will provide updates on the progress of investigations, as appropriate, in future correspondence to creditors.

If you wish to bring to our attention any matters which you believe to be relevant please do so by emailing INS_NMCHP_investigations@alvarezandmarsal.com.

4.3 Costs

4.3.1 Payments made to date

We do not have direct control over any bank accounts in the Companies' names so no payments have been made from the date of our appointment to 10 November 2020 from bank accounts over which we have direct control. However the following payments have been made on behalf of the Companies from the NMC Healthcare main account:

Trading costs

Trading costs include purchases of drugs, consumables and other medical equipment, payroll, rent, utilities and insurance. Certain trading costs that have been incurred are yet to be allocated to these (or other) categories.

Costs of realisations

The terms of the AFF require that certain agent, legal and banking arrangement fees are paid as an expense of the administrations. A proportion of these have been paid to date.

Bridge Loan repayment

Prior to the AFF, ADCB put in place a temporary bridging facility that enabled the Companies to continue to trade. As a condition to the initial utilisation of the AFF, the Bridge Loan was repaid in full.

Cash sweep payments

As noted in section 4.2 above, cash sweeps are in operation whereby certain entities have been paying funds into a bank account of NMC Healthcare.

4.4 Ongoing strategy

The Companies are all continuing to trade with the Executive Board continuing to have day-to-day operational control of the Companies' businesses, with our oversight.

Together with our team, we will continue to help implement operational improvements and enhance the Companies' financial and corporate governance. With regard to the latter, we intend that bank accounts will be opened for each of the Companies and for receipts and payments relevant to each entity to be made to / from the correct entity bank account.

We are in the process of drawing up a plan of reorganisation for an administration exit strategy, together with our professional advisers. The longstop date for implementation of this plan is expected to fall within the first half of 2021. The plan of reorganisation includes workstreams in relation to asset mapping, claims mapping and the mechanism for implementation of the restructuring. All of these aspects feed into an entity priority model that will allow us to calculate potential returns to creditors. In addition to the plan of reorganisation, we will continue to progress the potential sale of core and non-core assets.

5 Dividend prospects

5.1 Secured creditors

The purported secured indebtedness is included at Appendix 4. In the time available, it has not been possible to verify the accuracy or legal validity of the purported security interests. We are in the process of assessing creditor claims, and therefore, at this stage we are not able to provide an update in respect of dividend prospects to secured creditors.

5.2 Preferential creditors

Claims from employees in respect of (1) non-discretionary salary (including agreed holiday remuneration) and (2) contributions to an occupational pension scheme (if any) in respect of the whole or any part of the period of 3 months before 27 September 2020 rank preferentially.

Where the Companies employed staff, there would have been preferential claims against those specific Companies at the date of administration. However, these claims have been settled in full by virtue of the continued employment of these staff members and employees are therefore no worse off as a result of the administrations.

5.3 Unsecured creditors

Based on current estimates, we anticipate that the unsecured creditors of each of the Companies should receive a return. As set out in the administration application, the return to unsecured creditors is dependent on the exit strategy of the administrations. The potential scenarios and estimated respective return to unsecured creditors set out in the administration application are:

- The liquidation scenario where the Companies cease to trade and the assets are liquidated would return to unsecured creditors 3.5c – 4.8c per USD 1;
- The asset realisation scenario where the Companies continue to trade while the assets are sold would return to unsecured creditors 5.2c – 12.7c per USD 1; and
- The scenario where a plan of reorganisation is approved by the creditors would return to unsecured creditors 11.6c – 18.7c per USD 1.

The above are estimates, are not entity specific and we have yet to determine the amount and timing of any return. We expect to be able to provide an estimate of the proposed returns to unsecured creditors once we have progressed the restructuring plan. The quantum and timing of any return will also be dependent on the outcome of potential litigation, both in respect of claims and asset recoveries. The above estimates do not include potential recoveries from litigation.

The method of paying returns to unsecured creditors will be dependent upon the exit route from administration (please refer to Section 6).

6 Ending the administration

6.1 Exit from administration

6.1.1 Anticipated exit route

We consider it prudent to retain all the options available to us, as listed below to bring the administrations to a conclusion in due course. Our exit route will be determined by a plan of reorganisation. However, at this stage we anticipate that the most likely exit route will be a scheme of arrangement as this is estimated to provide the best return to creditors.

6.1.2 All exit routes

As mentioned above, we consider it prudent to retain all the exit options available to us. We may therefore use any or a combination of the following exit route strategies in order to bring the administrations to an end:

- apply to the ADGM Court for the administration order to cease to have effect from a specified time and for control of the Companies to be returned to the directors;
- formulate a proposal for either a scheme of arrangement under part 25 of the ADGM Companies Regulations (2015) or a Deed of Arrangement under Chapter 8 of IR15, and put it to meetings of the Companies' creditors, shareholders or the ADGM Court for approval as appropriate;
- place the Companies into creditors' voluntary liquidation. In these circumstances we propose that Richard Fleming and Benjamin Cairns be appointed as Joint Liquidators of the Companies without any further recourse to creditors. If appointed Joint Liquidators, any action required or authorised under any enactment to be taken by us may be taken by us individually or together. The creditors may nominate different persons as the proposed Joint Liquidators, provided the nomination is received before these proposals are approved;
- petition the ADGM Court for a winding-up order placing the Companies into compulsory liquidation and to consider, if deemed appropriate, appointing Richard Fleming and Benjamin Cairns as proposed Joint Liquidators of the Companies without further recourse to creditors. Any action required or authorised under any enactment to be taken by us as Joint Liquidators may be taken by us individually or together;
- file notice of move from administration to dissolution with the Registrar if we consider that liquidation is not appropriate because (1) no dividend will become available to creditors, and (2) there are no other outstanding matters that are required to be dealt with in liquidation. The Companies will be dissolved three months after the registering of the notice with the Registrar.

Alternatively, we may allow the administrations to end automatically.

6.2 Discharge from liability

We will seek approval from the ADGM Court that we will be discharged from liability in respect of any action as Joint Administrators upon filing of our final receipts and payments account with the ADGM Registrar.

Discharge does not prevent the exercise of the ADGM Court's power in relation to any misfeasance action against us.

7 Approval of proposals

7.1 Initial creditors' meeting/Conduct of business by correspondence

We are required by statute to summon an initial meeting of creditors for each of the Companies to seek approval of our proposals. In order to minimise costs, we intend to conduct the business of these meetings by correspondence in accordance with Section 63 of IR15. Notice to creditors of resolutions by correspondence is available on the Portal.

Instructions regarding voting and submission of claims are set out in the covering letter to these proposals which is also available on the Portal. These approvals are in respect of each individual company and votes should only be submitted in respect of the entity of which you are a creditor. In order to vote, you are required to submit a valid claim via the Portal into the Company / Companies of which you are a creditor. Voting forms are to be received by email to INS_NMCADGM@alvarezandmarsal.com no later than **12 noon (GST) on 6 December 2020**.

Creditors' committee

We are not proposing that a creditors' committee is established in relation to the Companies. However, a creditors' committee can be established for each Company, if the creditors decide that one should be established, and sufficient creditors are willing to act. The minimum number of committee members is three and the maximum is five. This resolution will also be sought by correspondence and is included within the Notice which is available on the Portal.

Function of the creditors' committee

The creditors' committee represents the interests of the creditors as a whole, rather than the interests of certain parties or individuals.

Its statutory function is to help us to discharge our responsibilities as Joint Administrators.

If a creditors' committee is formed it is for that body to approve, for instance:

- The basis of our remuneration; or
- The drawing of certain disbursements

Members of the creditors' committee are not remunerated for their time. Other than receiving travel expenses, they receive no payment from the Companies.

7.2 Resolutions

The proposed resolutions for each of the Companies to be considered as part of the initial creditors' meeting are as follows:

- Our proposals dated 19 November 2020 are approved; and
- A creditors' committee will not be established.

In addition, creditors are also required to vote on the proposed resolutions in Section 8.

7.3 Request for a creditors' meeting during COVID-19

Insolvency legislation requires us to call a meeting of creditors to consider the resolutions if asked to do so by creditors whose debts amount to at least 10% of the total debts of the Company within five business days from the date of delivery of the notice.

In these exceptional times, the insolvency profession is trying to operate within a legal and regulatory framework that was not designed with COVID-19 restrictions in mind. We must

take reasonable steps in the interests of public health and the safety of creditors, other stakeholders and our staff.

In accordance with the current guidelines, it will not be possible to hold a physical meeting at this time due to the current COVID-19 pandemic. As a result, if one of the requisite thresholds is met for requesting a physical meeting within five business days of delivery of the notice, we will convene a virtual meeting instead. We will convene such a meeting for a date and time that complies with the legislation. For the avoidance of doubt, nobody is able to attend a meeting in person when it is conducted by way of a virtual meeting. As a result, creditors will only be able to attend remotely.

We trust that you will understand that these steps are necessary while the current restrictions are in force. If you are thinking of requesting a meeting, we would request that you email us at INS_NMCADGM@alvarezandmarsal.com or call +971 4 567 1040 to discuss any relevant matters.

8 Joint Administrators' remuneration, disbursements and pre-administration costs

8.1 Approval of the basis of remuneration and disbursements

8.1.1 Basis of remuneration

For the purposes of fixing our remuneration under Section 109 and Schedule 12 of IR15, we propose to seek approval from the unsecured creditors or the creditors' committee (if creditors vote to establish one) that:

- our remuneration will be drawn on the basis of time properly given by us and the various grades of our staff to matters arising in the administration in accordance with the charge-out rates included in Appendix 3; and
- disbursements for services provided by A&M will be charged in accordance with A&M's policy as set out in Appendix 3.

8.2 Pre-administration costs

The following pre-administration costs have been incurred in relation to the pre-administration work detailed in Section 3.4:

Pre-administration costs			
Description	Paid (\$)	Unpaid (\$)	Total (\$)
Time costs charged by the Joint Administrators	55,236.38	9,550.98	64,787.36
Expenses incurred by the Joint Administrators	386,101.14	153,786.19	539,887.33
	441,337.51	163,337.17	604,674.69

These are the total pre-administration costs for the Companies and were incurred equally between them. The paid pre-administration costs were paid prior to our appointment by NMC Healthcare on behalf of the Companies.

The amounts stated as unpaid were unpaid as at the date of our appointment. Approval for the payment of costs of and incidental to the ADGM Court application for the administrations was provided in the ADGM Court Order appointing us. Consequently, we are not seeking approval for these costs here.

Appendix 1 – Statutory information and facilities operated

Company information	
Company and trading name	Eve Fertility Center LTD, including its branch Eve Fertility Center LTD – SHJ.BR, with licence number 539107 (formerly known as Eve Fertility Center L. L. C. with licence number 539107) (in administration)
Date of incorporation	5 December 2005
Company registration number	000004206
Trading address	Corniche Al Buhaira, Al Nakheel Tower 303 Sharjah
Previous registered office (if any)	Corniche Al Buhaira, Al Nakheel Tower 303 Sharjah

Delivery date of proposals	19 November 2020
Administration appointment	The administration appointments granted in the Abu Dhabi Global Market Courts, Court of First Instance, Commercial and Civil Division, application number ADGMCFI-2020-02
Appointor	the Companies
Date of appointment	27 September 2020

Joint Administrators	Richard Dixon Fleming and Benjamin Thom Cairns
Purpose of the administration	<p>Our primary objective is to rescue the Companies as going concerns in accordance with Section 2(1)(a) of IR15. It is envisaged that the Companies will be passed back to the directors once a restructuring plan has been implemented.</p> <p>If this is not achievable, our primary purpose is to achieve a better result for the Companies' creditors as a whole than would be likely if the Companies were wound up (without first being in administration), in accordance with Section 2(1)(b). It is envisaged that the continued trading will maximise asset values and mitigate liabilities thus providing a better return to creditors than in liquidation.</p>
Functions	<p>The functions of the Joint Administrators are being exercised by them individually or jointly together in accordance with Section 145(2) of the ADGM Insolvency Regulations 2015. For the purposes of Section 57(1)(c) of IR15, any act required or authorised to be done by either or both of the Joint Administrators in respect of the Companies may be done by either individually or both jointly.</p>
Current administration expiry date	26 September 2021

Appendix 2 – Receipts and payments account

Receipts and payments accounts have deliberately not been included in this report as there have been no receipts or payments into bank accounts that are under the Joint Administrators' control. However, we understand that four of the seven entities have had trading activity during the period that has resulted in receipts and payments and so have funds sat in bank accounts that are not under the Joint Administrators' control (albeit most are technical available to the Group either at treasury or business unit level for day-to-day trading).

Three of the seven entities do not appear to have had financial activity in their bank accounts as a result of trade. However, this is unlikely to be the case and we are aware that, for example, certain entities form part of a 'cash pool'. Part of the ongoing work relates to differentiating trading activity such that each of the Companies is financially independent and is able to report in this way.

Appendix 3 – Charging and disbursement policy

Joint Administrators' charging policy

The time charged to the administrations is by reference to the time properly given by us and our staff in attending to matters arising in the administrations. This includes work undertaken in respect of tax, VAT and investigations from A&M in-house specialists.

Our policy is to delegate tasks in the administration to appropriate members of staff considering their level of experience and requisite specialist knowledge, supervised accordingly, so as to maximise the cost effectiveness of the work performed. Matters of particular complexity or significance requiring more exceptional responsibility are dealt with by senior staff or us.

Hourly rates

Set out below are the relevant hourly charge-out rates for the grades of our staff actually or likely to be involved on the administrations. Time is charged by reference to actual work carried out on the administrations, using a minimum time unit of six minutes.

All staff who have worked on the administrations, including cashiers and secretarial staff, have charged time directly to the administrations and are included in the analysis of time spent. The cost of staff employed in central administration functions is not charged directly to the administrations but is reflected in the general level of charge-out rates.

Different charge out rates are applied to different members of the team dependent on which aspects of the administrations they are working on, given the differing complexities and geographies across the various workstreams.

Charge-out rates (USD)	
Grade	From 27 September 2020
Managing Director	667 - 1,231
Senior Director	690 - 1,169
Director	460 - 1,081
Associate Director	388 - 863
Senior Associate	300 - 744
Associate	302 - 563
Analyst	173 - 319
Support	238

Policy for the Recovery of Disbursements

Where funds permit, the officeholders will seek to recover both Category 1 and Category 2 disbursements from the estate. For the avoidance of doubt, we have defined such expenses as follows:

Category 1 disbursements: These are costs where there is specific expenditure directly referable to both the appointment in question and a payment to an independent third party. These may include, for example, advertising, room hire, storage, postage, telephone charges, travel expenses, and equivalent costs reimbursed to the officeholder or his or her staff.

Category 2 disbursements: These are costs that are directly referable to the appointment in question but not to a payment to an independent third party. They may include shared or allocated costs that can be allocated to the appointment on a proper and reasonable basis, for example, business mileage.

We have the authority to pay disbursements without the need for any prior approval from the creditors of the Company.

Appendix 4 – Estimated financial position

Estimated financial positions

The Directors are in the process of producing a Statement of the Affairs of each of the Companies.

Once received the Statement of Affairs will be filed with the ADGM Registrar. Please note that disclosure of the Statement of Affairs may be restricted with the ADGM Court's permission if it is considered that disclosure would be adverse to the interests of the creditors.

As a Statement of Affairs has not yet been produced, details of the estimated financial position of the Companies as at 30 September 2020, are provided below. This date has been used for these purposes because the details as at 27 September 2020 are not available at this stage and any differences between these dates would be immaterial.

These estimates have been prepared using the latest information available and include a number of assumptions. Creditors should be aware that, as the Companies may not have completed updating its ledgers as at the date of appointment, the balances stated may be revised.

The information provided has been extracted from the Companies' books and records and we have not carried out anything in the way of an audit on the information. The figures do not take into account the costs of the administration.

The actual level of asset recoveries and claims against the Companies might differ materially from the amounts included in the financial information below.

Details of purported debt

Disclosed after the estimated financial positions for the Companies is a listing of the purported debts due from the Companies and any relevant security.

Creditor listing

The final part of this appendix is a schedule of the names, addresses and details of the debts of and any security held by potential creditors of the Companies (if known). The NMC Group operates on a business unit basis (rather than on an individual entity basis) and each business unit may include records of one or more NMC Group entities. Given this, it has not been possible to obtain a separate creditor listing on an individual entity-by-entity basis. The listing may therefore include parties which are not necessarily creditors of the Companies and may in fact even be creditors of an NMC Group entity not in administration. For the same reasons, it has also not been possible to determine the amounts due to non-financial creditors (although we expect this to be resolved once proofs of debt have been submitted in full).

Where a creditor's address is not recorded in the Companies' records or otherwise identifiable after having taken reasonable steps to try to obtain an address for that creditor, we have marked the address as unknown.

Detailed below are the purported debts due from the Companies and any relevant security. Sums demanded in the relevant acceleration notices have been recorded as the sums due on 19 September 2020. As such, current accelerated sums may exceed the amount identified as outstanding because of accruing interest and penalties, but it has not been possible to complete a reconciliation in the time available. Furthermore, where a facility has not yet been accelerated by the lender, the amount immediately due cannot be determined, and in many cases is subject to negotiation. On this basis, no sum has been recorded. Therefore, the phrase “Not accelerated” has been entered in this column for borrowers and the phrase “Contingent liability as guarantor” has been entered in this column for guarantors.

New Medical Centre Pharmacy LTD (Abu Dhabi) - Purported debt and security position			
Purported/unverified debt facility	Amount outstanding (in AED)	Purported security	Sums due on 19 September 2020 (in AED)
Non-allocated facility USD 25m credit agreement - ICICI Bank Limited (DIFC Branch), 25 June 2019	91,835,000		91,800,000 (accelerated facility liability as guarantor)

New Medical Centre Pharmacy LTD (Sharjah) - Purported debt and security position			
Purported/unverified debt facility	Amount outstanding (in AED)	Purported security	Sums due on 19 September 2020 (in AED)
Non-allocated facility USD 25m credit agreement - ICICI Bank Limited (DIFC Branch), 25 June 2019	91,835,000	-	91,800,000 (accelerated facility liability as guarantor)

USD	United States dollar

Appendix 6 – Notice: About these proposals

This statement of proposals (“proposals”) has been prepared by Richard Fleming and Benjamin Cairns, the Joint Administrators of the Companies listed at Appendix 1, solely to comply with their statutory duty under Section 56 of IR15 to lay before creditors a statement of their proposals for achieving the purpose of the administration, and for no other purpose. It is not suitable to be relied upon by any other person, or for any other purposes, or in any other context.

These proposals have not been prepared in contemplation of them being used, and are not suitable to be used, to inform any investment decision in relation to the debt of or any financial interest in the Companies or any other company in the same group.

Any estimated outcomes for creditors included in these proposals are illustrative only and cannot be relied upon as guidance as to the actual outcomes for creditors.

Any person that chooses to rely on these proposals for any purpose or in any context other than under Section 56 of IR15 does so at their own risk. To the fullest extent permitted by law, the Joint Administrators do not assume any responsibility and will not accept any liability in respect of these proposals.

Richard Fleming and Benjamin Cairns are authorised to act as insolvency practitioners in the ADGM under the ADGM Commercial Licensing Regulations 2015.

The Joint Administrators act as agent for the Companies without personal liability. The appointments of the Joint Administrators are personal to them and, to the fullest extent permitted by law, Alvarez & Marsal Europe LLP does not assume any responsibility and will not accept any liability to any person in respect of these proposals or the conduct of the administration.

These proposals are in the process of being translated into Arabic. This translation will be made available on the Portal once complete.
