EXECUTIVE SUMMARY:

The UAE Cyber Security Council has observed Adobe released a security update to address a vulnerability in Creative Cloud Desktop Application.

TECHNICAL DETAILS:

Adobe has released an update for the Creative Cloud Desktop for Windows and macOS. This update includes a fix for a critical vulnerability that could lead to arbitrary code execution in the context of the current user.

- **CVE-2024-34116-Severity-Critical**
- Uncontrolled Search Path Element Category that can be used for Arbitrary code execution

Product	Affected Versions	Fixed Version
Creative Cloud Desktop Application	6.1.0.587 and earlier version Windows	6.2.0.554 Windows

RECOMMENDATIONS:

The UAE Cyber Security Council recommends updating Creative Cloud to Fixed versions released by Adobe.

Kindly circulate this information to your subsidiaries and partners as well as share with us any relevant information and findings.

The UAE Cyber Security Council extends its appreciation for the continued collaboration.
