Security Updates – Softnext products

Tracking #:432316108

Date:02-08-2024

EXECUTIVE SUMMARY:

The UAE Cyber Security Council has observed that Softnext released security updates to address a vulnerability in their products; Mail SQR Expert and Mail Archiving Expert.

TECHNICAL DETAILS:

Vulnerability Details:

- **CVE-2024-5670** | Base Score: **9.8 - Critical** | OS Command Injection
 - The web services of Softnext's products, Mail SQR Expert and Mail Archiving Expert do not properly validate user input, allowing unauthenticated remote attackers to inject arbitrary OS commands and execute them on the remote server.

Affected Versions:

- SN OS 12.1 version 230921 and earlier
- SN OS 12.3 version 230921 and earlier
- SN OS 10.3 version 230630 and earlier

Fixed Versions:

- Update SN OS 12.1 to version 230922 or later
- Update SN OS 12.3 to version 230922 or later
- Update SN OS 10.3 to version 230631 or later

Note: For affected products running on FreeBSD 9.x, updates will not be supported. Please upgrade the operating system version first.

RECOMMENDATIONS:

The UAE Cyber Security Council recommends applying the security updates recently released by Softnext.

Kindly circulate this information to your subsidiaries and partners as well as share with us any relevant information and findings.

The UAE Cyber Security Council extends its appreciation for the continued collaboration.
