

# 27th Annual IBA Arbitration Day Conference

Partnership Opportunities

Abu Dhabi has been selected by the International Bar Association (IBA) as the host city for the 27th Annual IBA Arbitration Day Conference (28-30 January 2026).

This year's theme, ***New Horizons***, explores the impact of emerging technologies, evolving sectors and new geographies on the future of human living, and their influence on the development of international arbitration.

The ADGM Dispute Resolution Hearing Centre (DRHC) is supporting the conference alongside a curated programme of events taking place around the main convening. We look forward to welcoming renowned arbitration experts, leading legal practitioners and key industry stakeholders from around the world to Abu Dhabi for this landmark moment in the global dispute resolution calendar.
