

## ADNOC Activities

Activity Code	Activity Name	Description
0910018	Onshore And Offshore Oil And Gas Fields And Facilities Services	"Includes facilities that want to deal with the oil sectors of the state and can be through this service, as well as the activity of the oil and gas facilities and services in the fields of land and maritime borders in trade license. In addition this activity is compulsory for all the companies that deal with oil companies operating in the state, both in the area of services, construction or supply or supply this activity epidemic originated as well as the dismissal of the President of the company activities this activity does not include the supply of petroleum companies employment "
1920001	Fuel Oil and Refinery Gases Production	-
4730001	Retail Sale Of Fule For Vehicles	Include the re-sale in specialized shops, Retail (fuel stations) fuel such as petrol, diesel fuel and hydrogen fuel directly to consumers, including stations that is dominated by the sale of petroleum products more than food and drinks
4661003	Wholesale Of Oil Recycling Derivatives Trading	Commercial establishments specializing in wholesale trade include the sale of types of products originating from the conversion of crude oil in oil refining stations to products or derivatives in their initial form before processing them in the petrochemical industry such as methanol, urea and olefins, etc., or medium products such as fuel for cars, vehicles, airplanes and ships such as gasoline, kerosene, diesel and oil Fuel, sulfur and nitrogen compounds, etc., or heavy products such as bitume
0910001	Natural Gas And Oil Well Drilling	Includes economic facilities specialized in the construction of oil and gas drilling has huge potential in the possession of the drilling equipment for those wells with a huge technical and human potential in digging wells that this activity does not include prospecting for oil
8211017	Operating and managing fuel stations	Includes the establishments working in the management and operation of car fuel stations and distributing cooking gas to consumers.
4661010	Wholesale of Pledges Refueling and Fuel	"This includes establishments that organize the necessary operations to supply maritime and air transport companies, industrial facilities, power generation stations, or other institutions with their needs of fuel, oils, combustibles, and similar materials used by these companies and facilities in operating aircraft, ships, vehicles, equipment such as generators, machinery, mechanisms, or transport media to carry out their various activities, through long-term or short-term contracts.
0910006	Oil Ports Operation (Management And Maintenance)	Facilities include specialized, technical and human potential in the exercise of the management and maintenance of the oil ports of various kinds in all operational processes

Activity Code	Activity Name	Description
0620001	Natural Gas Extraction	The enterprises operating in the sector includes the extraction of natural gas, this also includes the mining and hydrocarbon fluids generated through liquefaction or dissolution warming filter and separation of parts of liquid hydrocarbon extraction condensate this does not include the exploration of oil and gas wells, see 0910 manufacture of industrial gases, see 2011
0610001	Crude Oil Extraction	The enterprises operating in the sector include the extraction and production of crude oil and mining and extracting crude oil from oil rocks, sand, and involves the production of crude oil from the child Al-khairi Sand Butomeny the crude oil: brazen act which limitation and salt and drying and installation, this does not include the support activities for oil and gas exploration oil wells see 0910 Gaz Looking 0910
1920012.1	Combination of oil products	-
1920012.2	Refining crude oil and oil condensates	-
