

FSRA CONSOLIDATED LIST OF ACCEPTED FIAT-REFERENCED TOKENS

Pursuant to COBS 17.2A.1, the FSRA accepts the following fiat-referenced tokens (“FRTs”) as Accepted FRTs (“AFRTs”) for Authorised Persons carrying on a Regulated Activity in ADGM. The AFRTs may be used only on the network(s) specified. This list is subject to change.

The inclusion of an FRT on this list means that the FRT is eligible for use by an Authorised Person in carrying on a Regulated Activity, provided the Authorised Person satisfies and maintains compliance with applicable regulatory obligations, including those firm-level obligations outlined in Chapter 17 of COBS relevant to the use of FRTs. Authorised Persons should note that specific FSRA Rules may impose restrictions which may potentially limit the use of FRTs for certain purposes. Inclusion of an FRT on this list does not imply acceptance of that FRT for use when serving clients in jurisdictions outside ADGM.

If you have any questions regarding the ability of your firm to carry on a Regulated Activity using FRTs, please refer to relevant Guidance published by the FSRA or, alternatively, contact your firm’s supervisor.
